MAJOR PROJECTS

ARDUINO BASED HYDRATION APP WITH ALARM SYSTEM ANALYTICS

CAPSTONE PROJECT 2023-2024 In recent years, the increasing pace of urbanization and the growing awareness of environmental sustainability have led to a surge in indoor and urban gardening practices. This green movement reflects a collective effort to bring nature into our daily lives and promote healthier, more eco-conscious living. As more individuals embrace these green initiatives, there arises a need for effective and efficient methods to ensure the well-being of indoor and outdoor plants.
